WP Astra is one of the most popular theme in WordPress. Here is the download link on WordPress.org.

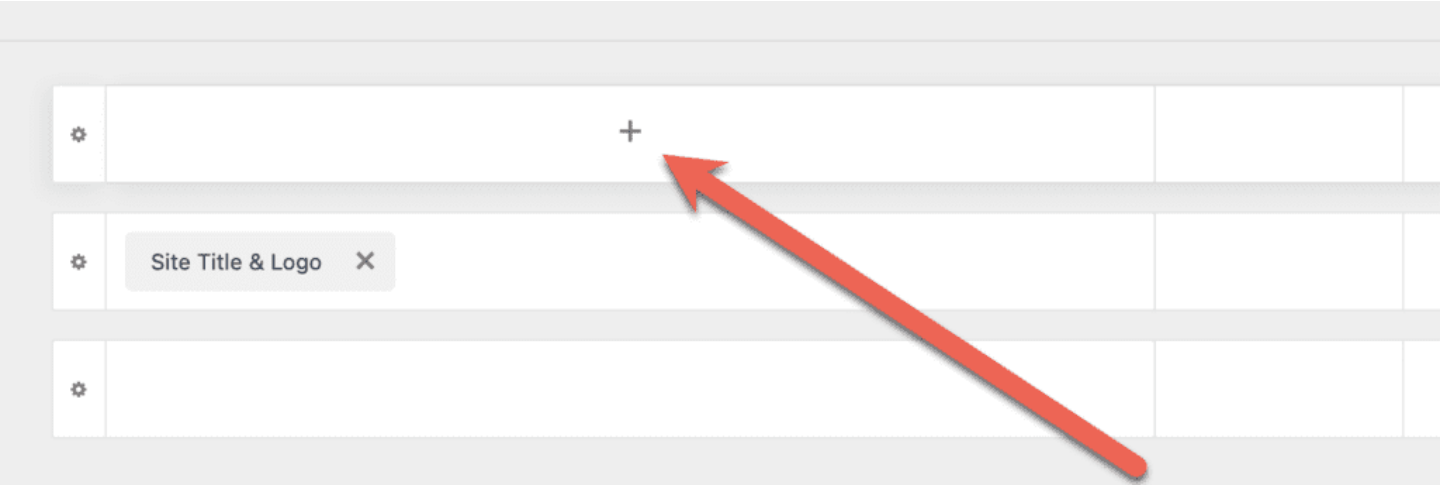
1,000’s of users are happily using MetaSlider and WP Astra together, and this combination has official recommendations too.

- Here is the WP Astra team recommending MetaSlider!
- The WP Rocket plugin team ran a whole series of performance tests using WP Astra and MetaSlider together. No problems at all, and MetaSlider got great results!

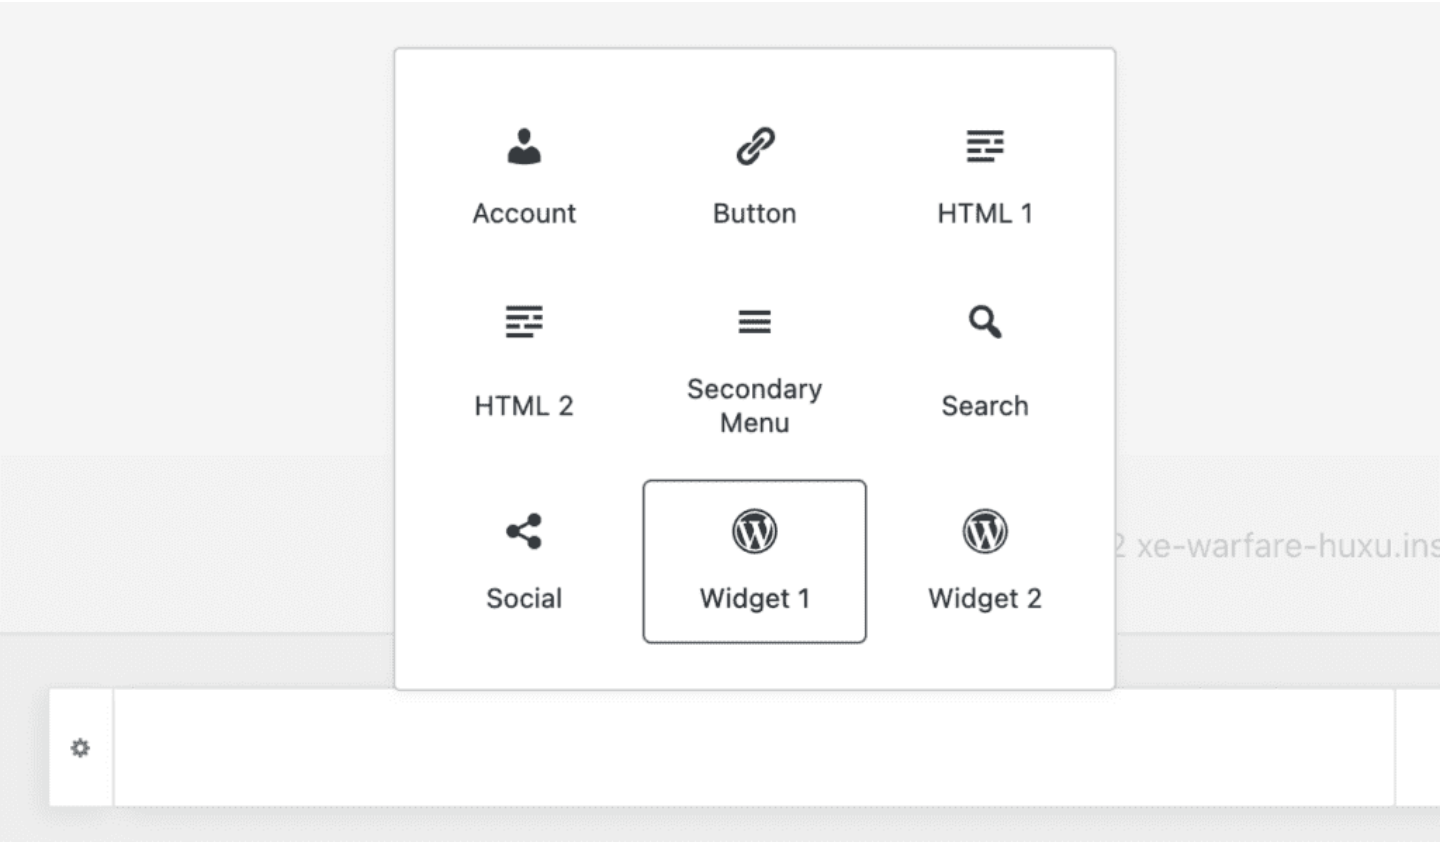
In this guide, we'll give you an introduction to using a MetaSlider slideshow together with your Astra theme.

If you're using the "Customize" area in Astra, the best approach is to use the "Builder" feature.

- In the image below, click the + icon for the area where you want to add your slideshow.



- Choose one of the "Widget" options.



- Choose the "MetaSlider" widget option.
- Choose your MetaSlider slideshow:
