Captions for Video Slides (Pro)

Slideshow: Captions · https://www.metaslider.com/docs/captions-for-video-slides/

This feature requires the MetaSlider Slideshow Pro plugin.

It's possible to overlay captions on top of your Local video slides, External video slides, Vimeo slides and YouTube slides. This image below shows a caption on top of a Vimeo video, using the "Highway" theme.

Here's an example of a caption on top of a YouTube video. This slideshow is using the "Nexus" theme. Please note that his different from the subtitles / captions that you can add to slideshows using the VTT format.

You can enter the captions for any of these slide types using the "Caption" tab. This screenshot below shows the "Caption" tab for a local video slide.
