Extra Break Tags Appearing in Slideshows

Slideshow Troubleshooting · https://www.metaslider.com/docs/extra-break-tags/

Sometimes you might see that extra break tags are being added to MetaSlider Pro slideshows. This issue can appear in MetaSlider Pro slides that have the "Caption Template" option.

This screenshot below shows an example of a slideshow with this problem.

The solution to this is the "Preserve New Lines" setting in the "Display Settings" tab. If you uncheck this box, the problem may disappear:
