Hide a Slideshow on Mobile

Slideshow: Code Samples · https://www.metaslider.com/docs/hide-a-slideshow-on-mobile/

If you don't want to show a slideshow on mobile, desktop, or other screen sizes, you can do this with CSS and MetaSlider. This approach will vary depending on how your WordPress site is built. Here is an example of CSS to show content on different devices. In this example, you could use the sample code with a MetaSlider shortcode, as in this example.

Update the CSS on your website using one of these recommended methods.

We hope that this code will be useful, but do not make guarantees. If you need troubleshooting help, or modifications to this code, please contact MetaSlider Pro support.
