How to Build the Layer Slider Demo

https://www.metaslider.com/docs/layer-slider-demo/

This guide shows you how to create the design seen for the Layer Slider demo from the MetaSlider Demo site.

Layer Slides allow you to create layers of different elements on top of your slides. You can add text, video, colors, animations and even other images on top of your first image.

To get the same look for your slideshow, use the settings in these screenshots below. This demo also uses the "Radix" theme. Please note that these screenshots are take with MetaSlider Pro. This slideshow can't be built with the Free version.

Main Options

Width	1200 px
Height	600 px
Effect	Fade
Arrows	
Navigation	Dots
Thumb Width	150 px
Thumb Height	100 px
