[1.1.0] - Nov 16, 2026

- ADDED: Email gate: visitors join your mailing list before they download. Works with Mailchimp, Kit, Brevo and Mailjet, #257, #276;
- ADDED: Each download can send its subscribers to its own mailing list, #275, #283;
- ADDED: Mailing lists are picked by name, from a list that loads from your email provider, #274;
- ADDED: Require Before Download setting, for all downloads or for one download: None, Login or Email gate. It replaces Require Login to Download, #271;
- ADDED: The settings screens show the features available in MetaSlider Downloads Pro, #263, #279, #288;
- ADDED: Other plugins can add settings tabs and settings, change the download link and the email gate page, and send the file themselves, #270, #281, #285, #291, #292, #293, #297;
- CHANGED: Allowed Roles apply only when a download requires login. The Guest role is gone: choose None to let everyone download a file, #271;
- CHANGED: Code updates to follow the WordPress.org plugin guidelines, #286;
- CHANGED: More automated tests for downloads, the download editor and shortcodes, #304;
- FIXED: The Allowed Roles field looked broken on the download edit screen, #273;
- FIXED: A page with two category trees stopped loading, #302;
- FIXED: The category tree never listed the files in a category, #306;
- FIXED: Files from Dropbox stopped downloading a few hours after they were picked, #317;
- FIXED: Files from OneDrive stopped downloading within an hour of being picked, #318;

[1.0.0] - Oct 16, 2026
