MetaSlider Gallery Free Changelog

The Free version of the MetaSlider Gallery plugin is available on WordPress.org. The changelog for the Free version is below:

The format is based on Keep a Changelog

and this project adheres to Semantic Versioning.

[2.38.0] - Sep 22, 2026

- ADDED: Galleries can now contain uploaded videos, which play in the lightbox alongside images;
- ADDED: Poster images for gallery videos, using the video's own cover art when it has one and a placeholder when it does not;
- ADDED: A video with no cover art of its own now gets a poster taken from the video itself, saved to your Media Library as you add it to a gallery, #696;
- ADDED: ml_gallery_items filter, ml_gallery_pro_item_controls action and ml_gallery_video_placeholder filter, so add-on plugins can extend gallery items;
- ADDED: ml_gallery_layouts filter and ml_gallery_layout_fields action, so add-on plugins can add gallery layouts;
- ADDED: Open with setting on the Carousel and Showcase layouts, so an image, icon or button click opens the gallery window, #669, #668;
- ADDED: Locked Watermark, Photo Metadata and Likes rows in the gallery editor, and a locked Before & After tile in the layout picker, so free users can see what Gallery Pro adds, #675, #676, #677, #678;
- FIXED: Video items were skipped by the Showcase layout;
- FIXED: Videos did not play on the Showcase layout — Livid.com, YouTube, Vimeo and uploaded videos now play in the stage itself, #691;
- CHANGED: Removed the unused video.js library, saving 633KB on pages that load video;
- CHANGED: Refreshed the Free vs Pro table on the upgrade page — added the missing Pro features (Before & After layout, Likes, Download Sizes, Photo Metadata, Image Protection and

Watermarking) and video galleries, and corrected the social sharing and responsive column descriptions, #664;

- CHANGED: The email sign-up window now starts with the address on your WordPress account, so there is nothing to type, #694;
- CHANGED: The Poster button now sits on the video itself in the gallery editor, instead of only inside the caption window, #698;
- CHANGED: New square Gallery icon in the WordPress admin menu, to match MetaSlider Slideshow, #706;
- CHANGED: Shorter, clearer wording in the email sign-up window, to match MetaSlider Slideshow, #705;
- CHANGED: Livid videos are now labelled Livid.com in the gallery editor, so the service is easier to recognise, #708;
- CHANGED: The empty gallery editor now says "No images or videos added yet", since galleries can hold videos too, #714;

[2.37.0] - 20 Aug, 2026

- ADDED: Load More button for large galleries, with a configurable batch size, on the Grid, Masonry and Justified layouts, #513;
- ADDED: Image Order setting to sort images by newest, oldest, filename A to Z / Z to A or random, instead of drag-and-drop only, #424;
- ADDED: Separate Gallery and Window image sizes, each with custom width, height and crop, #372, #561, #552, #553;
- ADDED: Column settings for laptop and tablet, so galleries follow the same four breakpoints as MetaSlider, #397;
- ADDED: Caption Position, Align, Background Opacity and Reveal on Hover controls, #559, #546, #547;
- ADDED: Schema.org ImageGallery markup for gallery SEO, with a global setting to turn it off, #515;
- ADDED: Expand toggle to hide the maximize button on the Carousel layout, #548;
- CHANGED: Register the gallery lightbox settings through the 'metaslider_default_parameters' filter, #600;
- CHANGED: The gallery preview now sizes to the gallery on the Carousel and Showcase layouts, instead of being cut off, #603;
- CHANGED: Added a Pro promo for the Download Sizes feature in the Toolbar panel, #605;
- FIXED: Images looked blurry on first view – the "Full" image size was overridden by the responsive srcset, #622;
- FIXED: Link options did not show in the caption editor, #620;

- FIXED: White area when switching from Arrange to Preview on a gallery that had not been saved yet, #623;

[2.36.0] - 4 Aug, 2026

- ADDED: Frame Border setting for the Carousel layout, so the frame stays visible when the carousel background matches the page, #550;
- FIXED: Captions never displayed on the Carousel layout, #592;
- FIXED: Noticeable lag when switching between photos on the Carousel layout, #542;
- FIXED: Custom slide links from the MetaSlider Links tab were overridden by the gallery, #395;
- FIXED: Rounded corners clipped the "Open in Gallery" button, icon and captions, #544;
- FIXED: Grid and Masonry tiles downloaded far larger images than they display, #512;

[2.35.0] - 29 Jul, 2026

- ADDED: Live preview for the gallery editor with a Preview / Arrange toggle and a Desktop / Mobile viewport switch, #455;
- ADDED: Per-gallery Height control for the Grid and Justified layouts, #524;
- ADDED: Caption Content source selector to pull captions from the manual field, the media caption or the media description, #563;
- ADDED: Convert an existing MetaSlider slideshow into a gallery, #569;
- CHANGED: Reorganized the gallery editor sidebar into a single-open accordion, #412;
- CHANGED: Added front-end-matching icons to every gallery editor setting, #501;
- CHANGED: Redesigned the caption editor with a navigable single-image modal and a per-thumbnail caption bar, #382;
- CHANGED: Consolidated the lightbox-trigger toggles into a single "how visitors open images" control, #499;
- CHANGED: Renamed the Settings submenu to "Global Settings" and brought button, icon and progress-bar appearance options onto each gallery, #536;
- CHANGED: Redesigned the welcome flow with a new empty-state panel, #535, #502;
- CHANGED: Made the "No images added yet" area clickable to open the media library, #541;

[2.34.0] - 8 Jul, 2026

- ADDED: Per-gallery image styling — filters, rounded corners, border, shadow, opacity, and rotate/flip, #510;
- CHANGED: Image Styles filters now also apply to the lightbox image and thumbnail strip, #523;
- CHANGED: Updated the toolbar icons to match MetaSlider and added a New Gallery button, #375;
- CHANGED: Justified galleries now stretch the final row to fill the width, #399;
- FIXED: Fullscreen did not work with the carousel layout, #425, #431;

- FIXED: Keep the Gallery admin menu next to MetaSlider when other plugins insert between them, #379;
