Progress Bar Navigation in MetaSlider

Slideshow: Slide Navigation · https://www.metaslider.com/docs/progress-bar-navigation-in-metaslider/

MetaSlider offers several different ways for visitors to see or control the progress of slides in the slideshow. One of those options is to show a progress bar. The progress bar shows the visitor how much time is left before the slideshow moves to the next slide.

This slideshow below has an example of the progress bar feature:

The "Progress Bar" feature can be enabled while editing a slideshow. The "Slide Delay" option controls how long the progress bar will run.
