How to Repeat Slides in MetaSlider (Pro)

Slideshow: Advanced Slide Options · https://www.metaslider.com/docs/repeat-slides/

This feature requires the MetaSlider Slideshow Pro plugin.

With MetaSlider Pro, it is possible to have repeating slides. This feature is helpful to several types of MetaSlider users, including those who have advertisements inside their slideshows. Under the "Advanced" tab, you can choose the "Repeat this slide" option.

In the screenshot below, this slide will repeat after ever 3 slides. So if this the first slide in a slideshow, it will appear in the first, fifth, and ninth positions.
